Intimate Technology Pods*

With Technology Hall, the ITI Congress North America is offering a rotating educational platform for clinicians to find out about the latest advances in dentistry today. A number of stations – technology pods – will be available to participants in 30-minute sessions, during which they can observe ITI Key Opinion Leaders showing how to deal with a particular situation or device. This will show participants how to bring their practice to a new level of success and incorporate cutting-edge treatment designed to enhance patient care. Technology Pod sessions cover a broad range of dental specialties and seating is first-come, first-served.
